When the night was young
In the cover from the rain
Winsome nights
In the garden, warm like an oven
These eyes are coloring

I say that you're right
We're on fire tonight
The way that you
Come on waste my time
I see the light
Shining on you tonight
The way that you
Come on waste my time

Closer now my love
Press your heart against my skin
Summer nights in the garden
Shine like no other
Way down inside

I say that you're right
We're on fire tonight
The way that you
Come on waste my time
I see the light
Shining on you tonight
The way that you
Come on waste my time

I say that you're right
We're on fire tonight
The way that you
Come on waste my time
I see the light
Shining on you tonight
The way that you
Come on waste my time
