

Swift "Reset"

Visit "[Reset](#)" on MotoLyrics.com

I can't make the choices in my face it's not erased
I'm just taking myself off the shelf and catching up on
all the things that you don't see
What about me (it doesn't matter)
You can't leave (it doesn't matter)
Don't walk away from me the sun would barely shine
If things last and are meant to be and it never truly
leaves
I was just taking time out to figure out what all my
friends were worth
Jamie (it doesn't matter)
Billy (it doesn't matter)
Don't walk away from me the sun would barely shine
Hold on to the way things once were
What I say (it doesn't matter)
What we play (it doesn't matter)
Finished now and I can finally breathe new air into the
deceased
And I just hope that you all have it in your hearts to still
care
Mikey (it doesn't matter)
Why can't we (it doesn't matter)
Don't walk away from me the sun would barely shine
