Promise you'll tell her  
Tell her I'll be there

Does she need me, does she care  
If she does, then, I'll be there  
Promise you'll tell her  
Tell her I'll be there

Does she need me, does it show  
If it does, I want to know  
Promise you'll tell her  
Tell her I want to know

In a dream, I had last night  
She appeared, I held her tight  
If my day time schemes go right  
She'll be mine, she'll be mine

Does she need me, can't you see  
She's the only one for me  
Promise you'll tell her  
Tell her I'll be there

Promise you'll tell her  
Tell her I'll be there

In a dream, I had last night  
She appeared, I held her tight  
If my day time schemes go right  
She'll be mine, she'll be mine

Does she need me, does she care  
If she does, then, I'll be there  
Promise you'll tell her  
Tell her I'll be there

Promise you'll tell her  
Tell her I'll be there
