Hands off I got no fingers get a load of my stingers I
want a piece There's no misunderstanding I don't know
where you're landing step on your feet I've been
waiting all afternoon getting ready with the water
balloon Tonight we'll breakout the bug spray too
Lazer Attack

My God give me that razor or I'll zap you with this lazer
frying your face you've gone the wrong direction and
risk serious infection
Get out of my way
Get out of my way
Your noise is making me smile take the switch from the
top of the pile Lazer Attack
