ample inquiry active, not electric but she is wirey i'm
missing, i'm affected futile and fiery sights moved into
you a fixture, a filed-b the blessed this fucked up gun
miscues, mishandling red-faced, not a case of
drunken ramblings lip locked to second faze
weaklings, not amputees gut wrenching, gut seeking
trends set on trampolines the blessed this fucked up
gun telling, like the tides severe, unaware sparing
suspicious bribes fifteen kings in stares nary a lorry
lies straight-forward, blisters bubble green as blushing
bride the blessed this fucked up gun no one can teach
you how to play no one can teach you the ropes no one
but... the courage of a younger pope
