"Fool In The Full Moon"

I've been following women all afternoon
don't turn around
too soon
I've been following you all afternoon
following you a fool in the full moon
something's got a hold on me when I get a hold of you
following women
after dark
nobody knows what's in my heart
let your loving be
I'm a lechery
I do not spread leprosy
I will not touch but let me see
my building's burning down and i cannot breathe
following you
who won't believe
perfect peace I cannot perceive
when I'm following you I'm a fool in the full moon
