Fend - Code Red

=====

You want,
You need me (on that floor)
(4x)

Take you further to code red

(Honour, code, loyalty)

You want,
You need me (on that floor)
(4x)

We use words like honour
We use words like code
We use words like loyalty
Honour, code, loyalty
Take you further to code red

You dont have to answer the question
Ill answer the question
You want answers?
I think Im entitled to it!

You want answers?
I want the truth!
You cant handle the truth!

Take you further to code red
Take you further to code red

Take you further to code red
