Did you ever think of me
Did you ever think that I cared
How could you walk away just like that
Oh you knew that I, that I depended on you

I was only ever scared
When you tried to make me feel
Like I was the only one
You were only ever there
When I tried to push you away
Oh you've come back for more

Did you ever come to ask
Did you ever come to see
How come you never let me go
How can I, I never should ?

I was only ever scared
When you tried to make me feel
Like I was the only one
You were only ever there
When I tried to push you away
Oh you come back for more

Don't say a word
I have found peace
This will be my home
My home is where you are
Don't say a word
I have found peace
This will be my home
My home is where you are

I was only ever scared
When you tried to make me feel
Like I was the only one
You were only ever there
When I tried to push you away
So you come back for more
