Fall for meg n? inatt
vinn min vilje, vinn min h?nd
Uten deg kan jeg ei leve
Ta deg i akt, min trolldomsmakt
vil fange deg inn og du blir min
Har vi en i m?nens favn?

Da hun s? han i dansen den aller f?rste dag
Sang hennes hjerte og lo hennes sjel, og lo hennes sjel
Det var han hun skulle ha

Hun hadde aldri sett slik ynde i en mann
Og dansen gikk p? vollen, p? vollen
Det var han hun skulle ha

Fall for meg n? inatt
vinn min vilje, vinn min h?nd
Uten deg kan jeg ei leve
Ta deg i akt, min trolldomsmakt
vil fange deg inn og du blir min
Har vi en i m?nens favn?

Han sa, "skj?nne kvinne, kom over hit
H?r, vil du vel gifte deg, gifte deg
med meg s? ung jeg er"

Hun ble nok blendet av hans sjarm og hans s?te ord
For da hun v?knet den andre dag, den andre dag
Fant hun sengen tom

Fall for meg n? inatt
vinn min vilje, vinn min h?nd
Uten deg kan jeg ei leve
Ta deg i akt, min trolldomsmakt
vil fange deg inn og du blir min
Har vi en i m?nens favn?

S? kom den tredje dagen, og med den den tredje natt
og dansen gikk p? vollen, p? vollen
Han danset som om ingenting var hendt

Translation:
In the Moon's Embrace

Fall for me this very night
win my will, win my hand
Without you, I cannot live
Beware, my magic power
[will trap you and you will be mine
Do we have one in the Moon's embrace?]

When she saw him dancing the very first day
Sang her heart and laugh did her soul, and laugh did
her soul
It was him she would have

She had never seen such grace in a man
And the dance was on the rampart, on the rampart
It was him she would have

Fall for me this very night
win my will, win my hand
Without you, I cannot live
Beware, my magic power
will trap you and you'll become mine
Do we have one in the Moon's embrace?

He said, "beautiful woman, come over here
Listen, will you pledge your troth, pledge your troth
to me, though young I am"

She certainly was blinded by his charm and his sweet
words
For when she awoke the second day, the second day
She found the bed empty

Fall for me this very night
win my will, win my hand
Without you, I cannot live
Beware, my magic power
will trap you and you'll become mine
Do we have one in the Moon's embrace?

Then came the third day, and with that the third night
and the dance was on the rampart, on the rampart
He danced as if nothing had happened
