Rumours where I left the fire
I lit a fire then run away
My oh my hold me tight
Hold me tight, make it right

The house burnt down, to the ground
To the ground, ashes and dust
My oh my hold me tight
Hold me tight and make it right

I have tried to search my soul
For traces of remorse
I find nothing of the kind

I will dance upon your grave
I wont shed a tear that day
I will not bring sorrow to my door
Not to my door

I still hear scream from the house
Scream from the house, trapped inside
My oh my hold me tight
Hold me tight and make it right

I have tried to search my soul
For traces of remorse
I find nothing of the kind

I will dance upon your grave
I wont shed a tear that day
I will not bring sorrow to my door
Not to my door
Sorrow to my door

Rumours where I left the fire
I lit a fire then run away
My oh my hold me tight
Hold me tight, make it right
