Hun l?fter sitt blikk mot m?nen rund
Trollferd gjennom skogen
Alle de venter i innerste lund
Trollferd gjennom skogen

Kom, ta i ring ? og dansen vil g? hele natten

Latter og leven, b?let blir tent
Trollferd gjennom skogen
Det bruser i tr?rne, det ventes spent
Trollferd gjennom skogen

Kom, ta i ring ? og dansen vil g? hele natten

Hun g?r imot dem p? naken fot
Trollferd gjennom skogen
Hun vet at i natt teller hennes mot
Trollferd gjennom skogen

Kom, ta i ring ? og dansen vil g? hele natten

Stunden n?rmer seg, hun er klar
Trollferd gjennom skogen
Vinden stilner i alle f?r
Trollferd gjennom skogen

Fang meg og fri meg, la dansen g?
Trollferd gjennom skogen
Fra alle kanter synges det n?
Trollferd gjennom skogen

Kom, ta i ring ? og dansen vil g? hele natten

Translation:
Troll Journey

She lifts her view to the moon round
Troll journey through the woods
Gathered they wait in innermost grove
Troll journey through the woods

Come, join the ring ? and the dancing shall last the
whole night

Laughter and liveliness, the bonfire is lit
Troll journey through the woods
There's rustling in the trees, and excited awaitening
Troll journey through the woods

Come, join the ring ? and the dancing shall last the
whole night

She walks toward them on naked foot
Troll journey through the woods
She knows that she must be brave tonight
Troll journey through the woods

Come, join the ring ? and the dancing shall last the
whole night

The moment approaches, she is ready
Troll journey through the woods
The wind dies down on every field
Troll journey through the woods

Trap me and free me, let the dancing commence
Troll journey through the woods
From all directions the singing comes
Troll journey through the woods

Come, join the ring ? and the dancing shall last the
whole night
