Every face I see is you
My memories just fade to the blue
When I think of you
My disillusionment is past
Dreams never meant to last
Now there's nothing left to hide
I've disregarded foolish pride too many times

If you should go
If you should go
If you should go
This heart's for hire

You brought me reeling to my senses
With lies and broken promises
There's no turning back

Words said in a heated moment
Leave me tormented still
Now there's nothing left to hide
I've disregarded foolish pride too many times

If you should go
If you should go
If you should go
This heart's for hire

Now there's nothing left to hide
I've disregarded foolish pride too many times
It makes no difference if I go or stay
Re-enacting the same scene over again and again

If you should go
If you should go
If you should go
This heart's for hire
(This heart's for hire)

This heart's for hire
(This heart's for hire)
This heart's for hire
(This heart's for hire)

This heart's for hire
(This heart's for hire)
