A thousand words can hide behind averted eyes  
Emotionless in a web of lies  
Forbidden thoughts you keep awake you when you  
sleep  
The truth is blind to your cold deceit

Turning your face away from a truth you'll never find  
Behind this masquerade  
Turning your back says much more than words could  
ever hide  
Behind this masquerade

You've gone too far  
To stop hiding behind this masquerade

A force of evil reigns as silence stakes its claim  
Invisible, as a grieved heart prays  
When innocence is lost your conscience pays the cost  
No sacrifice will bring back the past

Playing for time you'll find that tomorrow never comes  
Behind this masquerade  
Living a lie you'll soon find what you've been running  
from  
Behind this masquerade

You've gone too far  
To stop hiding behind this masquerade  
You've gone too far  
To stop living behind this masquerade
