I was on the outside
Trying to find my way back in
You were the answer
I was searching for my friend
Life is crazy when you're
Always on your own
It's amazing when you
Realize that you're not alone
I should've known
A long time ago that
You were the one for me
I let my ego bring me down
And that's what blinded me
Life is crazy when you
Don't know what you've done
And I'm a fool to think that
There could be
Someone else
When I know
There's no other one
(Chorus)

I said baby

What are you doing

Who are you fooling

Nobody but me

I said baby

Give me some time

To change your mind

Come back to me

I was nothing before you

But I became so strong

Just the things were cool when but

I had to make it wrong

Life is crazy

When you let things slip away

And now I'm sorry

Ever since the day you went away

I didn't mean to hurt you so

I never wanted you to go

Now there's nothing I can do

I spend my time

Late at night

Thinking only, about you

(Chorus)

Ever since you went away

I haven't been the same

Now there's nothing I can do

I was on the outside tryin' to find my way back in

And now I'm right back there again

Life is crazy when you find you're all alone

But now maybe

You can change your mind

And come back home to me

Come back to me

Oh baby won't you please come
