here's a little story that i have to

tell about somebody that i

thought i knew real well

it seems lately they haven't

been respecting me or treating

me with proper dignity

well i don't need you to

treat me this way

well the more i seem to give

well the less i get and i'm

tired of living in this world of life

and regret.

what should i do wasting all

my lovin' on someone like you

if you don't like me for what you

see well tell me baby set me free

what you see is what you get

please remember this is it

and what you see is what you get

what you see is what you get

at once there was a time

when i needed you and i  
looked past all the things that  
you put me through well you left  
my heart bleeding and it left me  
blind but it won't lead me back to you  
this time

well i don't need you to  
treat me this way  
well the more i gave to you  
well the less i got  
and you thought i was on top  
today well i'm not  
what should i do

i can't waste my loving on  
someone like you  
you don't appreciate the things  
you see so tell me baby  
set me free

what you see is what you get  
please remember this is it  
what you see is what you get  
what you see is what you get  
what should i do wasting all  
my lovin' on someone like you  
if you don't like me for what you

see well tell me baby set me free  
cuz what you see is what you get  
please remember this is it  
what you see is what you get  
what you see is what you get  
what you see is what you get  
please remember this is it  
what you see is what you get  
what you see is what you get  
bye bye baby good bye  
bye bye baby goodbye  
bye bye baby  
bye bye baby goodbye
