Call on Me (Composed by Phillip Ingram ---sung by Switch)

When your sun don't shine  
And your moon won't glow  
When you'll feeling doubt  
and you ---  
need to knowâ€¦

You won't be alone  
When the weights too much to bear  
It's always good to know  
That just one  
really caresâ€¦

Girl, I really care  
Won't you  
call on me (echo)  
call on me  
call on me  
call on me

I can't fly through the air  
Or perform a miracle task  
But when you need more  
than a friend  
Just ask (I'll come running to you)

I will give you strength  
Enough to stand alone  
So when the road get rough (the rough get's rough)  
Yes you'll be so very strong

And you will carry on  
Oh ohâ€¦..so when it rain down from your eyes (I'll clear  
your skies)  
I'll be you sun and I will clear your skies  
And I will always stand (with you)  
I will stand with you

Won't you

call on me (echo)  
call on me (When you need a friend)  
call on me  
call on me

Just close your eyes (Hold out your hands)  
I'll be your guide (it's good to know)  
That you got a friend  
You'll find I'll leave your heart with a smile (with a smile)

Please  
call on me (echo)  
call on me (When you need a friend)  
call on me  
call on me

When you feel down and out  
You just (just call)  
call on me (echo)  
call on me  
call on me (When you're in doubt, we'll work it out)  
call on me (if you)  
Call on me (echo)  
Call on me

Call on me
