"Business Before Love"

Oh everyone's on the outside looking in. They dont
know. They Dont know
Business before love baby.
But hey there is dinner on the table. On the table
But where is the love? Where is the happiness? Where
did it go?

Whoa you're falling the dollar signs wont catch you
they'll just watch you
Whoa you're not smiling the dollar signs won't make
you they'll just break you
So put your suit and tie on and work yourself away
So put your suit and tie on and work yourself away

You're caught in a scandal
A situation of love or lust
Money cant save you this time
Remember your family portrait
When she cant keep her legs under her desk

Gold doesnt shine
When your eyes are so dull
They are so dull
