[Fes Taylor] Yeah, Staten Island we back Born up town,  
Running with the bottle kids The Moms bounced out to  
Staten Island, Slid Kept to shopping at Lids, Buy a few  
fitteds Hated by a few critics, But I'm the new shit-ick  
By niggas wicked like Ice Cube with it Like everyday  
Halloween, You treat'n I aint trick'n for Aves to pick in,  
The Park Hill stick'n Anything with jewels drip'n, No you  
fools didn't Come to my hood, Look'n like food in it And  
I don't only walk the walk, I prove in it You finish like,  
Empty bottles of brews, Guinness Knock your teeth out  
like a true dentist Coupe tinted, No roof in it Twenty  
inch rims spin'n, Look at the waves Mothers brush yall  
hook up the waves Music blast at the light, Bitches look  
I just look up your wave like [Chorus 2X: Fes Taylor]  
Bluck-Bluck-Bluck, We shoot'n up the party Trouble  
making niggas got beef with everybody See we pull up  
cars and doing pull up spars We like Jamaican stars,  
We yelling pull up, Pull up [Fes Taylor] They say, One  
man can't change a whole continent So I put an army  
together so I can concur it Know they killed Cochran,  
Cause OJ they couldn't lock him in So stitch and sew like  
I'm doctor'n Buck fifty slashes, Clubs give us access  
Kinda like we got V.I.P. passes Yeah we shining with the  
Sun when our axis Like we moving the camera, Snap  
shot flashes Back block stashes, Cops still harassing  
Knowing we ain t have shit, You was hustle'n aspirin  
And now they ready rock that sheet rock Sell a beat on  
the block, Lift you out your Reebok's Welcome home T-  
Bot, My nigga E Locked Had around the same time S.E.  
got Like Flex dead, Damn, Still fuck with my head  
Sometimes wish it was me instead I should've went with  
you [Chorus] [Outro: Fes Taylor] Party over nigga, Soon  
as we come up in this bitch We shutting the shit the  
fuck down nigga Niggas can't get no money out here,  
Unless we in on it man
