[Intro: Mr. Chernak] Life will let you get away With
somethin for a while Sooner or later, you will pay the
price When you get the bill? Heh, don't be shocked
Don't act like you don't understand Everything you do
in life causes the effects That you experience, and
when you get that bill Be prepared to pay When the
moment of wreckoning comes You may feel as if you
unable to forgive yourself You may be too proud, to ask
for forgiveness There may be no way you can make
amends or restitutions In the worst case scenario, you
may be faced with all of these Possibilities, at the same,
time And should that happen, remember this Life
knows what you capable of The only reason life has
taken the time To point out your shortcomings And
nasty habits, is that life wants you to act like you know
who you are This is called Self Support, Self Care and
Self Love Until today, you may not of have realized
That you have allowed others to be involved In a crime
against you, you may have allowed them To support
you and sacrificing yourself And believing that you are
helping or serving them Just for today, don't be a yes
person Take care of yourself, don't give what you have,
for what you need Be supportive and self loving
enough To say no, and in the words of the master,
Malcolm X Asa lama lakum, my brothers [Chorus: T-
Bird] Why must all my good brothers go I'm asking
God, that's the question I want to know Know, know, so
I'm asking him why I think about you, while these tears
is in my eyes But I know God got a soldier in the sky
Sky, sky, shorty's gon' be alright [Fes Taylor] Coming
from Jersey, got the word, La's gone House Gang CD
on, pumping La's song I think back, we was on tour You
was rocking my chain, I was rocking yours Made me
feel kinda strange, I can't even cry Maybe cuz I'm used
to hearing my people's die Another casualty of war, but
actually I don't understand, so I'm asking the Lord Is it
all law, treated like dogs on all fours Pain like you
caught in the beartrap and lost paws Take a short
pause, and reminisce Pain make me wanna forget, so
my memory limited How you finish it, we just beginning
it My homey's died for this, so I'm living it Y. Million,

wish I could bring him back to I think it's time for my
Loose Linx tattoo [Chorus] [Inspectah Deck] How do I
say goodbye? When I just said hi When I just saw you
riding by When I just said those nights was fly Now I
look at your seed, and I see you when I look in his eyes
How can I be the same? Knowing one day it's my turn to
leave the game I try to find ways to ease the ways,
keep it dripping Sipping VSOP, cuz my team is slain
While I'm writing, tears soaking the page, I'm so in the
rage I'm so in a daze, I'm still in denile I'm blowing my
haze, I can't get no higher, I'm going insane If you can
hear me and you watching me now Give me a sign,
something I can see now Aiyo, I'm struggling to make it
out of the hood, son Damn, they took another good one
[Chorus] [Hue Hefna] Life crazy, amazed to have you
puzzled Head high, so I stand above my troubles I sit
and build with myself Obama's right, change is better
for your health First it started wit the crabs in the barrel
My path straight, it used to be a little narrow I had to
make my circle tighter No snakes allowed or crabs in
my cypher Still I'm praying for my homey's in the
system It's kind of hard, trying not to fall victim Shine
brighter than the sun, this is my solar system Ninety
degrees, flow sharper than a prism Pain is more fuel to
the fire To get me closer to them things I desire Trying
to cool off cuz I'm moving through the fire Life better
than trees, gets me higher I had to put a leash on my
anger Shit is crazy, rest in peace to La Banga Another
soldier gone but not forgotten The truth will always
shine, we get it popping
