"Empty Promises"

Visit "[Empty Promises](#)" on MotoLyrics.com

Faceless
Lost in the shadows
Searching for someone to love
Forced to live within your problems
A life that is much too real

Chorus
Kicking, Screaming
While you care to be heard
Failing to come up
Close your eyes and fill your lives with
Empty promises, hold them inside
Cause the harder the fall
(The more) you fail to hide
Your empty promises

Losing control of your lives
Hoping to live another night
Your left with so much to offer
You should've put up a better fight

Chorus

Your empty promises x4

(music)

Close your eyes
And fill your lives with
Empty promises, hold them inside
Cause the harder you fall
(The more) you fail to hide
X2

Your empty promises x5
