I know you're long gone with someone new
I can't move on, my thoughts are stuck on you.
If the sound could bring me peace,
All the noise makes it hard for me to breathe.
I know you're long gone with someone new.

The town feels empty and grey when you're not around
I'm trying everyday to escape the sound
Of your voice saying it's over now

It's over now
Mmm mmm mmm mmm
It's over now
[x2]

Stripped down to the bone in a foreign place
I feel I'm stranded in outer space
If this town could bring me peace
Memories make it hard for me to breathe
Stripped down to the bone in a foreign place

The town feels empty and grey when you're not around
I'm trying everyday to escape the sound
Of your voice saying it's over now

It's over now
Mmm mmm mmm mmm
It's over now
[x2]

The town feels empty and grey when you're not around
I'm trying everyday to escape the sound
Of your voice saying it's over now

It's over now
Ohh ohh ohh ohh
It's over now
[x2]
