Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Hit the floor, I say, hit the floor

Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Hit, hit the floor and dance like a white girl

Let's work, let's work  
Let's work, let's work

Whatcha think you doing in here  
Girl, I got hundred bottles of that Rozay  
Hoes, they always be in my ear  
Girl, I got a problem solver

Lean back and swallow  
Make this liquor all disappear  
Drop it, drop it, this your chance girl  
Money all in my pants, girl, it's your night so

Now, everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
It's your night, girl, hit hit the floor, I say hit the floor

Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Everyday is your birthday, now hit the floor  
Hit, hit the floor, I say hit the floor, leggo

This goes out to the 305's, 718's  
I mean all the states  
Came back, man, with the drop top  
You better call the cops

Baby girl, just stop, this white chain, ice  
This tourbillon, motherfucker, passed out  
Man, we on the floor all night  
She wanna go crazy and plus dance like a white girl

I told you before, it's me, bitch  
Y'all talk too much, y'all might be snitches  
I don't do the dirty work, yeah, I do the dishes  
I just lay the fuck back and just count my digits

Hit up, whip up, bring it back, I could bug out, go crazy  
I'm out of my mind, got Ciroq on deck, got Patron on  
deck  
Y'all crazy man, you had to do  
All on the floor with the spandex on

She got the red bottoms on, man, she get it on  
Man, I get it on, I just get it on with the best of flow

Party's in your glass  
You fill it up until you hit the roof  
Now hit the dance floor  
That liquid courage always got you

Throw your hands up in the air  
Like I'm the life of the party, party  
Like I'm the life of the party, party  
Like I'm the life of the party, party

Luda, now dance like a white girl  
I don't know what be  
She dancing too but she killing that shit  
She acting like a white girl drunk

And she outta control but I'm feeling that bitch  
Drop it like you owe it to me  
Give it to me like it's mine in the first place  
Lady in the street, freak in the bed

Wild in the party, professional in the workplace  
She independent and sexy, I think I love her, man  
She keep it clean but get messy under the cover, man  
Dirty, yeah, you know it, clap your hands

If you dirty and you know it, clap your hands  
She know how to do it like she the one who taught the  
class  
That thing so fat I need somewhere to sit my glass  
It's got a whore-a-million uses

And I get all the exclusives and damn that body so  
ruthless  
Now dance to what Swizz producing

Party's in your glass

Uou fill it up until you hit the roof  
Now hit the dance floor  
Yhat liquid courage always got you

Throw your hands up in the air  
Like I'm the life of the party party  
Like I'm the life of the party party  
Like I'm the life of the party party

Just dance like a white girl  
Let's work, let's work, let's work, let's work
