I'm hangin around

I not going down the state I'm in

I've never been proud

And now I'm allowed to shed my skin

I tried every way

I know if I stay I'll sit and spin.

Imagine the day

I'm drowing away ???

Pick up where I left off

Lets make a bet

We'll make a bargin and call this truce

Let's make a bet

I'm in loss and win or lose with you

I see it all now

I'm taking my bow and end within

I'm scratchin around

Its getting to loud the space I'm in

So now I can leave

To recent for me so evident

The one that would leave

The other concedes like never seen

Pick up where I left off Lets make a bet We'll make a bargin and call this truce Let's make a bet I'm in loss and win or lose Speakin in tounges i can't get through Think of runnin but I'm tired of runnin into you Speakin in tounges the way i do Found that you understand quite well Cause thats your language too I'm hangin around I'm not puttin down the state i'm in lets not make a sound its gettin to loud Lets make a bet We'll make a bargin and call this truce Lets make a bet I'm in loss and win or lose Lets make a bet I never wanted to call this truce Lets make a bet Always lost and win or lose with you Visit Fighters Foo page on MotoLyrics.com, to get more lyrics and videos.
