shut your mouth for the winter

if your boyfriend listens

were building a relation

for the music shakes it

There's that song again

there's that song again

there's that song again

there's that song again...

how come I could not cheat

if you're a colorful lover

I don't mind being one of them

I don't mind my, big deal

It's been thrown away again

it's been thrown away again

it's been thrown away again

it's been thrown away again
