[Moka Only]

Im Psychosomatic you might know the static that  
automatically comes when we hit these drums  
All of the underworld sayin here he comes  
to snatch back the crown and thats passed around  
In my fleet we beat the odds, meet the godfathers  
we keep the crowd hotter you speak and why bother  
I oughta modify my style I got a monicre thats volatile,  
this flow torch  
No force....is more resourceful than us...

Im not the type to sit around on barstools  
Me and the mic we been around since carpools  
and now with the 90's behind me i finally designed the  
epitamy of grimey  
you can finally wear the sunshine betry me and i'll have  
you all crying why me

[Chorus]

Ambush, Takin it back to the place we made the name  
known and theres no survival  
Ambush, We never seen this shit comin and we want  
you to know we still hold the title  
we still hold the title, theres no survival y'all should get  
bide  
We Strike Without Warning, Show no Remorse, We Run  
the Darkside

[Madchild]

[Chorus]

We Discovered the Brotherhood of the Wolves  
Where we cut em good and feed em to the dogs
