Chorus : You were already here
But closely you're disappear
Feels that you would be near
But sounds of nobody i can hear
Your eyes still haunting me
That shadow show me inside
But no trace of you I can see
Oh girl... I'm lonesome this night
You promise me that you'd be mine
But this here nobody I could find
All I see is the fireflies on the tree
Oh babe... I'm drowning naturally
Repeat Chorus
I'm impressed nothing bot honesty
It's just like a timeless pain of this
Still reminds how warm you hug my body
And so romantic from every kiss
Repeat Chorus
Uou were always here
But right now you're disappear
Can't see your face perfectly clear

No... You would never be near
And I missed your touch on my days
Loose my dignity on everyways
I never meant to be like this
See your face is somethin' I wish
You were already here
But right now you're disappear
Can't see your face perfectly clear
No... I already shed my tear
Babe still I wish you were here
