Baby

I used to tell my friends

I'd feel this until the end

And this here I would stand

But it's hard to understand

I used to set it free

Can't hide a lie of me

Tell them what I see

Let them know honesty

Chorus:

But I'm afraid to tell you

This love you'd never knew

I'm too naïve sometimes

Someway I was too blind

Oh this just for you only

Baby!

Tell them I need you here

My feelins growin' weird

But then I step up ahead

Like those beautiful day we met

Nevermind about the pain

Feels that it would be in vain

Then I grow stronger again

To make clear everything's plain

(Back to Chorus)

And I'm still here to testify

Everything I shouldn't have to deny

But everythin' I should have to say

Let her know my heart this way

Unlocked this love is all I need

Set it free through these simply beat

And I'm still afraid to tell you

This love you'd never knew

I'm too naïve this time

This day I was too blind

When I see your face

Just this time I could waste
