We live we die too many questions no answers just why  
The pain the hate how much longer do we have to wait  
We live we die too many questions no answers just why  
The pain the hate how much longer do we have to wait

Put on the news and what do I see  
The horror of a nation  
Forsake the future of the not yet born  
Another day another face

Poverty stricken laid to waste  
We keep denying the children crying  
Self absorbed in our own damn greed  
No motivation to live this life that we lead

After the fall After the fall what's left nothing at all  
After the fall After the fall we had a choice we made  
the call  
After the fall what's left nothing at all  
After the fall we had a choice we made the call  
After the fall what's left nothing at all  
After the fall we made the call

We live we die too many questions no answers just why  
The pain the hate how much longer do we have to wait  
We live we die too many questions no answers just why  
The pain the hate how much longer do we have to wait

Crimes of hate race against race  
Truth be told how much more can we take  
Violence and anguish death tolls rise  
The sins are cast open your eyes  
We need to learn from the mistakes of the past

A living suicide it won't be the last  
False hope can't get much worse  
Someone tell me why this life is such a curse

After the fall After the fall what's left nothing at all  
After the fall After the fall we had a choice we made  
the call

After the fall what's left nothing at all  
After the fall we had a choice we made the call  
After the fall what's left nothing at all  
After the fall we made the call

We all fall down
