The time to change is now  
If we forget our problems  
Our reasons our will to survive  
If we forget our problems  
Our reasons look back on your life  
If we forget our problems  
Our reasons our will to survive  
If we forget our problems  
Our reasons look back back on your life  
And imagine the way  
You'd want things to be  
Dreaming of a better day  
A better way to make a change  
There is no need to live by regret  
The time to change is now  
Forgive yourself For your mistakes  
Forgive yourself if we forget our problems  
Our reasons our will to survive  
If we forget our problems  
Our reasons look back on your life  
If we forget our problems  
Our reason our will to survive  
If we forget our problems  
Our reasons look back on your life  
Look back on your life
