1st Verse:

Won't you tell me
What's on your mind
Are we moving forward
Or are we, wasting time
Juss when i think i have it
Thoughts?? slip in my head
Are we for real
What should i feel
Help me understand
'cause deep in my heart
I imagine you and me
Sharing true love
I need to know
Tell me now
Is it juss a fantasy
Ohh

chorus

Tell me how you want it [tell me]
Do you want to do it right [do it right]
But do you, only want it for one night [oh, yeah]
Tell me how you want it [how do you want it]
We can make it anyway you like [ohh]
But I hope it's for tha rest of our lives

2nd Verse:

Oh, there wuz a time
Somewhere in my past
When my heart went
Too far and too fast for love to last
So, before we go
Even one kiss further
Should I stay, should i go
I need to know
I've got to be shure
'cause deep in my heart
I'm looking for you
So show me a sign
That love is real and that you,
Feel this way too

I'm pray-ing that you do

Chorus:

Tell me how you want it [tell me]
Do you want to do it right [do it right]
But do you[oh, do you] only want it for one night
[c'mon and tell me]
Tell me how you want it [how do you want it]
We can make it anyway you like
But i hope [i hope] it's for tha rest of our lives

3rd Verse:

You make it so easy for me to fall in love
Is it juss an elusion
Or sumthing i can trust
Wanna make tha right descision
Don't wanna leave it to chance
Baby are we for real
What should i feel
Help me understand.....
Tell me.....

Tell me how you want it [pleez tell me]
Do you want to do it right [we can do it right]
But do you, only want it for one night [baby, pleez tell
