(Verse)

Hang all the missletoe
I wanna get to know you better
(This christmas)
And as we trim the tree
How much fun it's gonna be together
(This christmas)
The fireside is blazing bright
We're carrolling through the night

(Chorus)

And this christmas will be
A very special christmas for me

(Verse)

Presents and cards are here
My world is filled with cheer and you
(This christmas)
Lights twinkle all around
Your eyes out shine the town, they do
(This christmas)
The fireside is blazing bright
We're carrolling through the night

(Chorus)

The fireside is blazing bright
We're carrolling through the night

(Chorus)

Have yourself a merry christmas
It's gonna be a special christmas
Repeat Until Fade...
