What I really hate is music like yours  
Makes me want to smash your head through a door  
Kill yourself, go die  
It'd be a better place in my eyes  
Must be some kind of sick joke  
Fact you exist makes me want to choke

(We hate your music)  
(We hate you too)  
We got our reasons  
(For what we do)  
You cannot hide, you stupid fucks  
We really think your music sucks

Where did you come from, Go back  
You should be hung up like meat on a rack  
I can't believe what has become  
To a scene I once loved

(We hate your music)  
(We hate you too)  
We got our reasons  
(For what we do)  
You cannot hide, you stupid fucks  
We really think your music sucks

I'm burned out, I tried my best  
But I got to get this off my chest  
These cloned wannabes, fashion disasters  
The best way to describe brings me laughter

'You fake ass motherfuckers  
You wonder way we hate you  
Your existence makes me sick'

(We hate your music)  
We hate you too  
(We hate your music)  
We hate you too

We hate  
We hate

We hate  
We hate  
We hate you
