@Freedom at Last  
Take the chains off of U  
Take the chains off me too  
Say what U need,we all need love  
Love can pull us thru  
We can live for that day  
Many miles are still in our way  
Believe what's in U, believe what's in me  
Don't fear the power of freedom.  
Chorus:Freedom at last,don't you want your freedom  
Freedom at last,don't you want your freedom  
Freedom at last,don't you want your freedom  
Freedom at last,time to fight for freedom.  
No need to suffer  
No need to do without  
Every effort we make,to make everthing right  
Is gonna last for forever,and that's long,long time

The timing is right  
Let's step over that line  
Look to the future  
Learn from the past  
Together we will have freedom  
Repeat Chorus  
If you let love in  
The hatred will pass,hatred will pass

There's no chains on U  
Take the chains off me too  
Live for tomorrow and learn from the past  
Together we will have freedom  
Repeat Chorus  
Don't you want your freedom,the hatred will pass  
Don't you want your freedom,the hatred will pass  
Don't you want your freedom,the hatred will pass  
Time to fight for freedom,hatred will pass
