Lets do this shit, lets do this
Ooh, I will be your superman
Yeah

Girl, its only been seven days since I haven't been
around you, girl
Girl I get so petrified every time I get around you
(ooh)
You must be some kryptonite girl I get so weak around
you
Hey im just scared, but ooh I like the feeling of
whenever you're there
You are the girl, I am a boy
Baby I just want to take you away,
You are the world ill be your superman
And you be the world that im saving

I will run faster than a bullet babe
I could jump a building in a bound
Only for you,
I could run faster than a speeding train
Baby girl I hit the speed of sound
Whenever you call and you know
That I would be your man of steel
Baby you can be my Lois lane
Fly you away, strength of the world baby,
I would be your superman,
Your superman

Girl, its only been about a day since I had you here in
my arms
Ooh girl,
Feel the strength of twenty men, lady when your
turning me on (ooh)
You must got them x-ray eyes, girl I get so true around
you
Think im afraid, but hey I love the feeling of whenever
you're near
You are the woman I am the man, baby,
I just wanna fly you away.
You are the world, I am your superman and you are the

world that I live in

I will run faster than a bullet babe
I could jump a building in a bound
Only for you,
I could run faster than a speeding train
Baby girl I hit the speed of sound
Whenever you call and you know
That I would be your man of steel
Baby you can be my Lois lane
Fly you away, strength of the world baby,
I would be your superman,
Your superman (what)

Your superman (x8)

And maybe I break down when your not around (your
not around)
And love I need you now to bring me out (to bring me
out)
You see love, when I look into your eyes, ya know,
I swear that I can fly (that's right I can fly)
Ya know, its like I can run faster than a speeding bullet
(a speeding bullet)
Hey, I can jump a building in a single bound (a single
bound)
You know ill be your superman (sing!)

I will run faster than a bullet babe
I could jump a building in a bound
Only for you,
I could run faster than a speeding train
Baby girl I hit the speed of sound
Whenever you call and you know
That I would be your man of steel
Baby you can be my Lois lane
Fly you away, strength of the world baby,
I would be your superman,
Your superman (x2)
