Love, you got a feeling that you cannot hide  
You got a feeling that you can't decide, what's right  
Hey, it's got a history and it's here to stay  
It's got nothing here, to slap your face,  
While you are down  
It's hanging around

But love, it's too hard to break  
Love, ain't nothing you can take  
It's a little thing we make

Hate, it's waiting off for you all night  
Just to see that you got home all right  
Love, it comes and goes from town to town  
If you stand up you're gonna hit the ground  
When it finds you, and it's going to too

'Cause you know love, it's too hard to break  
Love, ain't nothing you can take  
It's a little thing we make

Would you hate me never said I know  
You'd enjoyed the show  
Here's to you, love when you need it most

Don't you know love, it's too hard to break  
Love, ain't nothing you can take  
It's a little thing we make

It's a little thing we make
