Look at me
Look into my eyes
Tell me, do you see that I am always by your side?
Or has the world got you down on your knees?
Come to me
Look at you
Look into your heart
Tell me is there room for you to make a brand new
start?
Or has the world gotten to you and made you dark?
Come to me

'Cuz when you cry, all your tears I will wipe away
and when you laugh, who you think got you that way?
And when you dream, when you wake up, is it me you
want to see?

Look at us
Look around the world
'cuz all you seem to find are unhappy boys?unhappy
girls
and tell me ? is that what you want for you and me?
Don't you want to be happy?
