green grass by Elisa Waut
we are we are sitting on sitting on the grass
we are we are sitting on sitting on the grass

why are they having fun
why are they laughing on

the day is green the day is green
and ??? is in my head
the day is green the day is green
and ??? is in my head

why are they feeling good
why are they feeling good

no more bad luck
only inspiration
no more bad luck
no more hesitation

no more bad luck
only inspiration
no more bad luck
no more hesitation
no more hesitation
