We drive due south with bloodshot eyes, we live a  
broken lines  
Rest stops and the perfect scenes, long drives where I  
never get to sleep  
Sometimes I think Iâ€™m falling apart but I, Iâ€™m leaving  
tomorrow, Iâ€™m leaving tomorrow  
Rest stops and the perfect scenes  
The strain of my eyes just caught on to the weight of  
this evening

Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know you wont do it again, weâ€™ve got to face the end  
Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know you wont do it again, weâ€™ve got to face the end

Iâ€™ve been from coast to coast and I live for the next  
hundred miles  
Breath in the world in changing  
Let go, oh what theyâ€™re saying  
They donâ€™t love you , Theyâ€™ll push you until you just  
fade  
So Iâ€™ll send it express cause I know that you want it  
Use a ten dollar bill at the bottom of my pocket  
Thought the world would make us miss  
Instead it ended our whole relationship oh sweetie

The strain of my eyes just caught onto the weight of  
this evening  
These nights left me with the simple satisfaction  
But the dreams I had were the ones that were bound to  
happen

Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know I wont do it again, weâ€™ve got to face the end  
Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know I wont do it again, weâ€™ve got to face the end

Oh no, donâ€™t you let it go to your head

These simple words I thought you said  
“Let's start this over, I wanna try for one more time  
tonight” [x2]

Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know I won't do it again, we've got to face the end  
Do you wanna make this harder?  
Do you wanna share it by the fire?  
I know I won't do it again, we've got to face the end

We've got to face the end [x4]
