If I scream loud and up to the hills  
Will you come down in hopes that somehow I'll save the  
day  
You're wishing summer skies would fadeout  
You live your life like a black cloud  
You're wishing someone could see the rain  
Cause they could never really feel your pain

We're just here to have a good time, let it all out  
But you're tripping on a bad line and does that make it  
right?

Oh you miss the fall and it's a matter of fact  
How I gave you pins and needles down the back of your  
neck  
And the nights we'd talk for hours are a thing of the  
past  
It's not the end of the world, it's not my fault that it  
turns  
Around and around again, so why don't you just give in

Reconstruct all the pieces you left on the ground  
I'll still wait for the day and its coming now
