Now theres ten thousand singers all singing along  
To sad songs about lovers who tried to move on  
And if dreams are worth dying for then I'll dream till I'm  
gone  
About kids in a mosh pit all singing my song

We wont let it die let it die  
Things couldn't get better then this  
We wont let it die let it die  
Things couldn't get better then this  
My body is aching my stomach feels sick  
But things couldn't get better then this

Well we swore that we'd make it and never give in  
Now I'm back in the van and we're all wearing thin  
If dreams are worth dying for I'll dream till I'm gone  
With my friends all around me and singing along

We wont let it die let it die  
Things couldn't get better then this  
We wont let it die let it die  
Things couldn't get better then this  
My body is aching my stomach feels sick  
But things couldn't get better then this

Just keep breathing, and forget the pain  
Just keep dreaming and you'll find a place  
And a part of your youth that was dead  
We'll come right back to life and you'll know what I  
meant  
Just keep breathing, and forget the pain  
Just keep dreaming and you'll find a place
