I hate it when we're not together  
I really miss you so  
I just want to be with you  
Everyday, and every night  
Cause I'm so in love with you  
Can I please  
Live with you for the rest of my life  
Cause I hate it when we're not together

Chorus:  
When we're not together  
It tears me apart  
When we're not together  
It just breaks my heart  
I want to be with you  
For the rest of my life  
You will always be number 1 in my life  
I need you now  
I want you now  
Cause I hate it when we're not together

Every time I'm with you girl  
My heart pours out to you  
You fill me up with sweet love  
That only you can give to me  
You're all I need  
In my life  
I want to make love to you  
And be with you  
All night long  
And everyday for all my life

You light up my world within  
I really need to see you now  
And kiss your lips  
And every night  
I dream sweet dreams of you  
I see you now  
Sitting next to me  
I'm never alone

You're always there  
By my side  
To lift me up when I am down  
Look in my eyes  
I'm saying to you  
I never want to leave you girl  
You're all I need  
You will always be my baby

Chorus:  
Cause when we're not together  
I miss your smile  
I miss your kiss  
And I sure miss your loving touch  
You're gentle touch  
Feels so good  
Touch me everywhere my love  
I love you so  
Never want to let you go  
I just wanna hold you in my arms  
I just want to be with you  
From this day on  
I want to see you everyday

Now this song  
Is almost through  
But before it ends  
Let me ask you this question

I love you so  
Will you marry me baby?

I just want to marry you  
And be with you  
And spend the rest of my life with you  
Cause I hate it when we're not together  
I just need to see you now  
And whisper to you  
In your ear  
I love you so much girl

Will you marry me?
