All of my life I was so alone  
I kept thinking I would never find love  
Then on that magical day, everything changed  
I started talking to you  
That's when I know I found love  
There was something about you  
I just couldn't resist  
I had the courage to tell you exactly how I felt

Chorus:

Then something inside of me  
Filled me with such joy  
Knowing that I had found love and so much more  
When I found you girl  
I knew deep in my heart  
You were the one  
From the very start  
You filled up my heart with love  
And when I found you  
I found love

When I looked into your eyes  
I saw all I wanted to see  
That sparkle in your bright eyes  
Lit my world within  
Then I got lost  
In the beauty of your stare  
Girl I need to tell you  
How much I care for you

Chorus 2:

Girl, you will always be loved by me  
No one else will change that  
I love you with all my heart  
I just want to see you  
And hold you in my arms forever  
And never let you go  
I want to taste your sweet kiss  
From your soft and gentle lips  
You will always have my love  
Cause when I found you

I found love

Spoken:

Girl, I just want to tell you

How much I love you

So let me ask you this question in this song

Girl, I have always loved you from the day I met you

I will keep on loving you forever

Til the end of time

Baby, will you marry me?

Sung:

Now this song is almost through

I want to say how much I love you

And how much I care for you

I want to spend the rest of my life with you

Cause when I found you girl

I found love

Yes when I found you girl

I found love

I love you baby
