Never, never, never again  
Will Tommy die for you

Over the top the unknown go  
Into a land where no man lives  
Say goodbye to his friends  
Cause they will never see Tommy again  
General, general on the top of the hill  
Middle class man whose blood won't spill  
Kept out of the action, out of harm's way  
Cause he's gonna find that Tommy's dead

Never, never, never again

War is over so they say  
How many Tommys died that day  
Now it's over count the cost  
A ring of roses for those that lost  
A place in history is what they've got

For what they paid it's not a lot  
Medals and statues are no compensation  
For working class heros who died for you

Never, never, never again  
Will Tommy die for you

Over the top the unknown go  
Into a land where no man lives  
Say goodbye to his friends  
Cause they will never see Tommy again  
General, general on the top of the hill  
Middle class man whose blood won't spill  
Kept out of the action, out of harm's way  
Cause he's gonna find that Tommy's dead
