Who'd believed the dreams we shared  
Our ambitions took us there  
We didn't know, we didn't care  
All of a sudden to my surprise  
The pains of reality arise  
Could I have known, my dreams were just lies

No one ever talked about  
The method or the reason  
As I stood here on my own  
I've got to wonder what I need

Someone to believe in me (in me)  
Someone to stand and agree  
I know I see  
But I need some help to succeed  
Someone to believe in me (in me)  
Someone to reach for the need  
I know it's true  
But I need some help to believe

Now as I see above the crowd  
It doesn't look easy, I don't know how  
Can you explain, this vision to me  
Left or right, it's so unclear  
I missed the voice that I gotta hear  
Just gonna stop and wait 'til I find you

No one ever warned me when  
This wheel went into motion  
Never showed me how to steer  
In a course full up to here

Someone to believe in me (in me)  
Someone to stand and agree  
I know I see  
But I need some help to succeed  
Someone to believe in me (in me)  
Someone to reach for the need  
I know it's true  
But I need some help to believe

Someone to believe in me (in me)  
Someone to stand and agree  
I know I see  
But I need some help to succeed  
Someone to believe in me (in me)  
Someone to reach for the need  
I know it's true  
But I need some help to believe

Someone to believe in me (in me)  
Someone to stand and agree  
I know I see  
But I need some help to succeed  
Someone to believe in me (in me)  
Someone to reach for the need  
I know it's true  
And I need some help to believe
