You work a good nine to five and let it control you  
Hungry for the piece of pie you think someone owes  
you  
You don't try to survive past what you think you know  
You stay afloat never swim, let the waves take your  
soul

Everybody wants something  
(But they don't earn it)  
But you're not gonna get from me  
(From me, yeah)

Gotta go for what you know  
(What you know)  
What you get ain't all what you see  
(Oh yeah)

Relationships are up to you to manifest destiny  
You fuss and fight all the time, seems like you can't  
agree  
No compromise, everyone thinks they're so damn wise  
But I know one thing's for certain

What you do brings everything  
While what you say don't mean a damn thing  
What you say don't mean a damn thing, oh, oh

Everybody wants something  
But you're not gonna get from me  
(Don't look at me)

Gotta go for what you know  
(Go for your)  
What you get ain't all what you see  
(It ain't what you see)

Everybody wants something  
(Everybody wants something)  
But you're not gonna get from me  
(Oh, yeah yeah)

Gotta go for what you know

(Go for what you know)  
What you get ain't all what you see  
(Oh, oh, oh yeah)

Everybody wants something  
(They don't earn it)  
But you're not gonna get from me  
(Don't look at me)

Gotta go for what you know  
(Go for your)  
What you get ain't all what you see  
(It ain't what you see)

Everybody wants something  
But you're not gonna get from me  
(Oh, oh, oh yeah)

Gotta go for what you know  
(Oh, yeah, yeah)  
What you get ain't all what you see  
(Yeah, yeah, yeah)

Everybody wants something  
But you're not gonna get from me

Gotta go for what you know  
What you get ain't all what you see

Everybody wants something  
But you're not gonna get from me

Gotta go for what you know  
(What you see ain't always what you get)  
What you get ain't all what you see  
(What you see ain't always what you get)

Everybody wants something  
(What you see ain't always what you get)  
But you're not gonna get from me  
(What you see, you see, ain't always what you get)
