You took me here
A world of fear
I can feel myself
Fading away
I won't waste another day

You took me here
The end is near
All is said and done
My conscience is clear
I won't miss you when I'm gone

Goodbye to you
Goodbye to everything you do
Needless to say
You're just one of God's mistakes

You're not so strong
The same old song
It's sad to see you dance
Around the truth
I'm not the little girl you knew

You're not so strong
I carry on
Love can make a fool
Of anyone
I won't miss you when I'm gone

Goodbye to you
Goodbye to everything you do
Needless to say
You're just one of God's mistakes
