

## Sylver "Heal My Heart"

Visit "[Heal My Heart](#)" on [MotoLyrics.com](http://MotoLyrics.com)

A suffering soul cannot be loved  
An empty hand has lost its trust  
Forsaken by luck, forsaken by men  
Before a heart breaks it has to bend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend

A troubled mind will silently shout  
A bleeding body is no way out  
Forsaken by luck, forsaken by men  
Before a heart breaks it has to bend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend

Heal my heart, make it shine again  
Let the wings of love take us home again  
Heal my heart, make it whole again  
Bring my innermost fears to an end, my friend
