I wanna ask you something  
I wanna make you see  
I've so much more to offer  
There's so much more in me (echo)

Don't question my commitment  
Don't question my desire (echo)  
Believe in my devotion  
An endless burning fire (echo)

I can't wait, it's not too late  
To open up your eyes (echo)  
But I've to know, just got to know  
I'll ask you one more time

Am I the one, the only one  
Am I the only? (echo)  
Am I the one, the only one  
For you?

Am I the one, the only one  
Am I the only? (echo) (am I the only)  
Am I the one, the only one  
For you?

Oh yeah!

Release yourself from sadness  
Release yourself from fear  
Just close your eyes and listen  
The guiding star is near (echo)

Don't question my commitment  
Don't question my desire (echo)  
Believe in my devotion  
An endless burning fire (echo)

I can't wait, it's not too late  
To open up your eyes (echo)  
But I've to know, just got to know  
I'll ask you one more time

Am I the one, the only one  
Am I the only? (echo)  
Am I the one, the only one  
For you?

Oh yeah!

Am I the one, the only one  
Am I the only? (echo) (am I the only)  
Am I the one, the only one  
For you?

Am I the one, the only one  
Am I the only? (echo) (am I the only)  
Am I the one, the only one  
For you? (for you)

Oh yeah!

Am I the one, the only one  
Am I the only? (echo) (am I the only)  
Am I the one, the only one  
For you? (for you)
