[MC Man]

Down for the brown

Yeah

[MC Man]

The definition of brown is a soldier like Emiliano Zapata  
Pancho Villa, that's why I keep it real for my Raza  
As I stand on my own two with my hand on my gun  
Always down for my land cuz a real man would never  
run

Out of strength or out of potential

I'm always feeding my mental as I put it on the  
instrumental

Teaching my people right from wrong

Because Latinos are tired of the same old song

They can take away my gun but they can't take away  
my pain

Cuz when minorities menace it's time to do it again

They try and lock us all up cuz they're scared of the  
revolution

And then they try to blame us for drug distribution

We don't own no factories and we don't own no planes

California ain't the place that they grow cocaine

All my thoughts have been foc, yes my time has been  
spent

Now I really figured out who's the real immigrant

It ain't me, it's you the boys in blue

And the devil in that white European too

And no you know player hater that this land is brown

The home of the Aztec where the indian was found

I'm taking back what is mine like I said in the past

I'm always down for my gente and I ain't never scared  
to blast

From the end of the world back to East Oakland

MC Man and Lighter Shade got a real master plan

Like an Aztec warrior I'm putting it down

I'm letting all my homies know that I'm down for the  
brown

[Chorus: MC Man & DTTX]

We're putting it down for the brown from LA to the town

Cuz we're brown and proud and that's the way it's  
going down  
We're putting it down for the brown from LA to the town  
Cuz we're brown and proud and that's the way it's  
going down  
We're putting it down for the brown from LA to the town  
Cuz we're brown and proud and that's the way it's  
going down  
We're putting it down for the brown from LA to the town  
Cuz we're brown and proud and that's the way it's  
going down

[DTTX]

I'm keeping it real with my peeps in the streets  
Representing for life and everyday of the week  
So check it, it's from the IE to the Bay  
Set up in Oaktown, in LA my gente back me all the way  
Right, living life brown and proud for sure, one  
hundred percent straight  
We're regulating from the gates  
To flip the script something major  
Spreading the word as I swerve and everywhere that I  
serve  
To heat it up like the sun  
From the Mid East to Aztlan I'm dedicated till I'm gone  
It's got me caught up in the game  
Just living my life in the body of the set you claim  
See my get down is brown  
We're putting it down when I come around  
Check it

[Chorus]
