For peace we pray  
Save us from all fears  
Oh Lord! Save us!

You can feel me in your mind  
With every breath you take  
Burn the earth by flame of sins  
I'll make you feel dismay

Our feelings play with us  
But you must keep yourself under control  
If you're searching for resolves  
Be ready for the tolls

Show us the right way  
Day after day  
All fears we must forget  
Then better world we'll get

If you have the greatest aim  
Keep it in your soul  
I'll be always by your side  
Always in your heart

Our dreams can play with us  
Even if we think that we keep control  
From all horrors in the world  
Salvation is love!

The earth in flame  
And you must share the blame

Look inside yourself  
We both are there  
Day after day....
